SUMMARY

Passionate Frontend Developer with hands-on experience building responsive and user-friendly web applications using HTML, CSS, JavaScript, Bootstrap, Git, and GitHub. Skilled in creating clean, accessible, and visually appealing digital experiences. Alongside web development, I have experience in content creation and scriptwriting, which have strengthened my creativity, communication, and storytelling skills. Currently learning TypeScript and seeking internship opportunities to contribute to real-world software projects while continuously growing as a developer.

PROJECTS

Eko Heritage Restaurant

Personal Project 2026

- Designed and developed a responsive restaurant website using HTML, CSS, JavaScript, and Firebase.
- Built features including an interactive menu, reservations, authentication, and a mobile-friendly interface.
- Deployed the project online and documented it on GitHub.

Personal Project 2026

Luxury Hair Empire

- Developed a responsive salon website showcasing products and services.
- Designed a clean and modern interface with smooth navigation.
- Optimized the website for desktop, tablet, and mobile devices.

Green Valley University

Personal Project 2026

- Built a responsive university website with pages for admissions, academics, and campus information.
- Focused on accessibility, responsive layouts, and user-friendly navigation.
- Published the project on GitHub with complete documentation.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

Incoming Student (Expected Start: 2026)

Awards
